## **cubus hall system 12**

The hall – no one can avoid it. The short moment of transition from outside to inside gives an impression of the living area and reveals the internal architecture to the visitor. In order to give an impression of space, clear and reserved furniture is required such as the **cubus** hall system 12 programme which allows room to breathe. The **cubus** hall system pleases the eye due to its functional, clear design and creates an atmosphere of peace and relaxation. The new hall system consists of a solid wood hall stand which is open at the sides, a bench, a slim console with drawers and a mirror element mounted on natural wood panels. All of these elements can be combined individually if required. The programme is available in a variety of sizes and seven types of high-quality wood. Sophisticated details such as the inset keyhole, the integrated folding handle of the console and the elaborate internal division bear testimony to the perfect craftsmanship of the Austrian furniture manufacturer.
