lunetto – sleep with the sensuality of nature

High-quality natural wood and pure presentation: the lunetto bed from Karl Auer und Alois Hangler promises relaxing sleep in a clear ambience. Selected natural woods lend the bed sensual warmth despite its clear design mode. The minimalist use of material in the **lunetto** beds available in futon, normal or comfort height gives an impression of exceptional lightness. The beds can be obtained in walnut, cherry, core beech, beech or alder. The varieties of bed enable a number of design possibilities. At the imm cologne 2008 there is now also a bed system with a straight wooden frame. Whether with a wooden headstread or leather upholstery - **lunetto** combines a clear design mode with the sensuality of high-quality natural wood and perfect craftsmanship. In **lunetto**, as in all TEAM 7 beds, sophisticated metal-free joints are used. The matching bedside tables, which are exactly the height of the beds, are available in an exclusive mixture of glass, natural wood and coloured drawers are especially attractive.
