riletto console: A classic in a new form

The design is clear – an exciting contrast of natural woods, leather and coloured glass: The **riletto** console by TEAM 7 is characterised by its straight lines and unusual material mix. The horizontal grain of the elegant walnut wood is soothing and calming on the eye. The console fits in perfectly with the programme since its wood tones and forms correspond to that of the other pieces in the **riletto** range. Sophisticated: the cube-shaped corner drawer with its leather side panels contains two compartments and plenty of space to store personal items. It is designed without handles and can be operated using a touch function. The combination of the corner drawer and mirror, which is attached to wood panels, makes the console a contemporary interpretation of the classic dressing table.
